CartNest: September 2026 payment reconciliation

Summary for the CFO. Sales per order records compared with cash received in the bank. All amounts in rupees.

₹1,98,94,293	₹1,69,84,048.56	₹29,10,244.44
SALES PER ORDERS	CASH RECEIVED IN BANK	GAP

Of the ₹29,10,244.44 gap, **₹12,65,526.90 is only timing** and **₹5,52,324.03 is genuinely owed to us by the gateway**. Every rupee of the gap is accounted for.

What the gap is made of

- **₹12,65,526.90 (43%) is timing.** Sales made on 29 and 30 September, which the gateway pays out on 1 and 2 October.
- **₹10,99,664.31 (38%) is normal.** ₹8,93,888 of refunds to customers and ₹2,05,776.31 of gateway fees at the agreed rates.
- **₹5,52,324.03 (19%) is a genuine shortfall.** ₹5,51,074.03 is one settlement, due 12 September, that never reached the bank; ₹1,250 is a short payment on 11 September.
- The remainder, a net −₹7,270.80, is small order-record errors (listed below) that slightly reduce the gap.

Causes, largest first

Cause	Amount (₹)	Type	Next step
Settlements due in October (2 batches)	12,65,526.90	Timing	Confirm both credits arrive on 1 and 2 October.
Refunds paid to customers (243)	8,93,888.00	Expected	None.
Settlement due 12 September never received	5,51,074.03	Genuine loss	Ask the gateway to pay or prove the transfer; escalate if unresolved within 7 days.
Gateway fees at the agreed rates	2,05,776.31	Expected cost	None.
20 paid orders with no payment	67,617.00	Genuine loss	Check each with the gateway; collect the payment or cancel the order.
8 Failed or Cancelled orders that were charged	(28,687.00)	Cash to return	Refund the customers.
6 customers charged twice	(25,539.00)	Cash to return	Refund the extra charge.
8 payments with no matching order	(24,992.00)	Cash to identify	Trace the payers; refund or book correctly.
15 orders where the gateway collected less (₹3,145) and the 11 September settlement short (₹1,250)	4,395.00	Genuine loss	Include in the claim to the gateway.
55 payments charged fees above the agreed rate	1,185.20	Genuine loss	Claim a credit from the gateway.
Total gap	**29,10,244.44**		

Amounts in brackets are cash received that is not sales, so they reduce the gap.

Also to fix

- **₹84,115 is owed back to customers in total:** ₹28,687 charged on failed or cancelled orders, ₹25,539 charged twice, and ₹29,889 for six orders marked Refunded where no refund was ever issued.
- Seven refunds (₹13,886) were issued on orders still marked Paid. Correct the order status.

One pattern to monitor: fee overcharges on UPI and Wallet payments

- 25 UPI payments of ₹2,000 or less were charged 0.3% when the agreed fee is nil, and 30 Wallet payments above ₹2,000 were charged 2.4% instead of 1.7%. Card and NetBanking were charged correctly.
- The excess this month is only ₹1,185.20 (UPI ₹73.90, Wallet ₹1,111.30), but it repeats on every qualifying payment, so it grows with sales volume.
- Ask the gateway to correct the rate setup, and check each month's fees against the agreed rate card.
